

ABOUT

Symphonic metal from northern Italy, with two voices moving between clean harmonies and extreme screams.

Arcana Visione was born in 2023 from the ideas of drummer and founder Riccardo Mantovani. After many line-up changes, the band found its balance with Claudio Pisano on guitar, Linda Binaschi and Elena Guidi on vocals, Elena also on piano, and Andrea Scimone on bass.

The sound is symphonic metal. On top of the band, sequences add orchestral parts, choirs (both backing-vocal layers and classical-style choirs) and passages influenced by electronic music. Along the way the lyrics moved from Italian to English and the sound grew darker.
